General Comments

CCO 314, SAMPLING AND TESTING A354 GRADE BD MATERIAL:

There is no work in the field on this operation today by ABF. For the Townsend Test (Test IV) for TR's 14-17, test rig setup work is ongoing. ABF is only working on limited operations in the field this Saturday – no Pier 7 warehouse work today, but a crew is working at the tower today.

INSPECTOR OT REMARK:

Office 6 hours: ABF is not working in the field today. I am at work to address several CCO 314 issues. I am reviewing EWB's for CCO 314 due next week (note that a week ago, I thought they were due earlier this week; also ABF has submitted more EWB's later this last week). I am also reviewing a draft final report from VGO provided at the end of the week – this is a cursory review and the DJV is also reviewing this report to confirm if any changes are needed before the official submittal. My shift and OT hours are 0900 to 1530.
